Dedicated to Life

As MCV students, we have chosen career goals which reflect our dedication to life. Striving not only for excellence in academics, but we endeavor to maintain the highest standards for patient care, and most importantly, the quality of life. As the students of today, we will become the health care professionals of tomorrow. Building our future begins with sincere concerns and interests in the health-related problems of today, and tomorrow. Forseeing those problems, but more importantly, seeking the solutions are the responsibilities of each and every health care professional. With this in mind, the combination of a knowledgeable faculty, motivated students, and a carefully planned curriculum insures the future success of our graduates. Medical College of Virginia is dedicated to preparing and promoting us to become promising professionals. And so, for this year and always, it is our strong compassion for humanity that leaves us...dedicated to life.

Richmond's Got It All

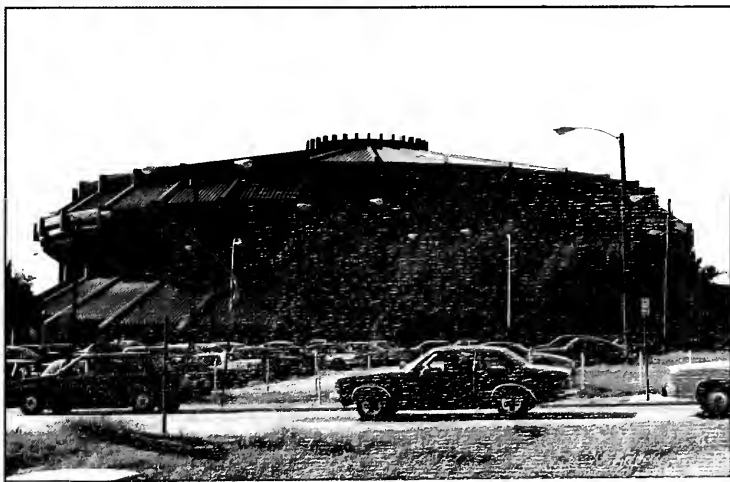

Richmond. You have got to see it to believe it! If you know where to look and what to look for, then Richmond offers a great number of attractions. For instance, just driving down Monument Avenue takes you straight back to the high school history class for a review of the famous historical heroes. But for this review, there is no need to take any notes...simply enjoy the sites!

No matter the route you take to downtown, day or night, Richmond's skyline is sure to catch the eye. Once downtown,

there is plenty to see and do. Visit the old and the new, especially the Old City Hall, which resembles a King's castle from a fairytale. And, don't miss the view of the city from atop the new City Hall. From there, it is on to see the Capitol, where Virginia's government officials assemble to make our laws. And if you are lucky, maybe you will see the governor or even a movie crew filming on the capitol state lawn.

More?! You say you want more? Then why not take in a pop concert at the Richmond

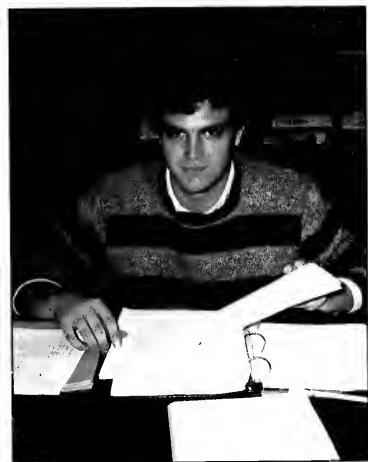

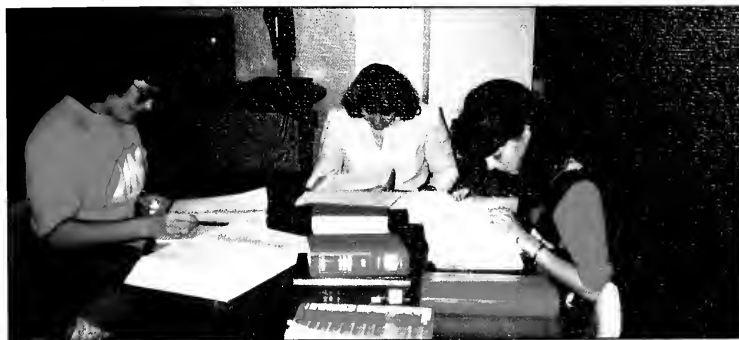

Coliseum, or perhaps the Ballet or Symphony. If that is not enough, the sports fans can catch the Richmond Braves at the Diamond. Wait! There is more, there are shopping malls at every corner of Richmond just waiting to be invaded. So, hit the town...from the historical to the trendy, Richmond's got it all, and more!

Playing Doctor?

No! Becoming doctors! Who has time to play? Students at MCV spend the majority of their time in lectures, laboratories, and libraries fulfilling requirements and preparing for exams. For now, it is the life of a student, which means a 36 credit hour class load, studying on weekends, and of course giving up sleep to cram for the finals. Sacrificing some "playtime" is usually a necessity in order to succeed in medical school. So...Are we playing? Absolutely NOT! It takes serious dedication to become a real doctor...and MCV students know it.

Turn the page, the corner, walk down the halls, or into any door at MCV and the sights you see may leave you saying...“Wow!...Pretty Impressive!” But whatever you see, you are sure to be left with a lasting impression.

Impressive Impression

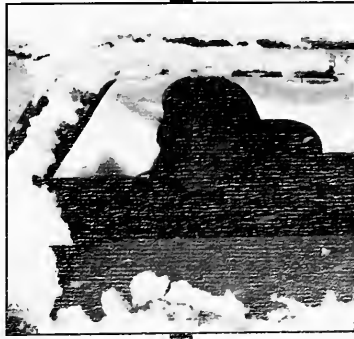

Winter Wonderland

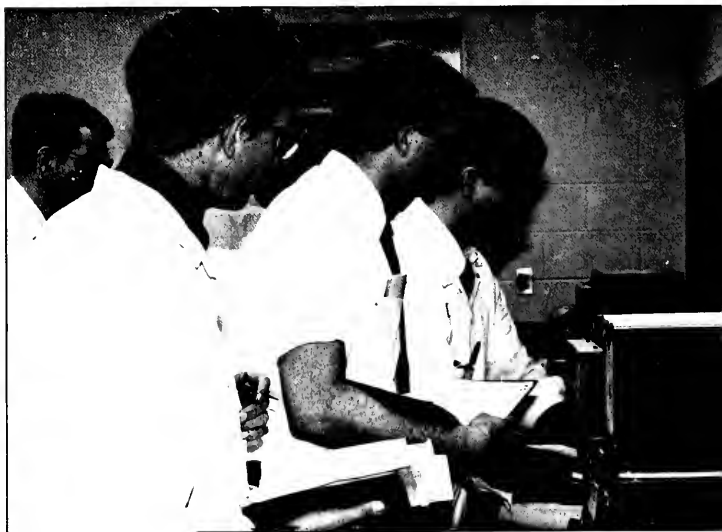

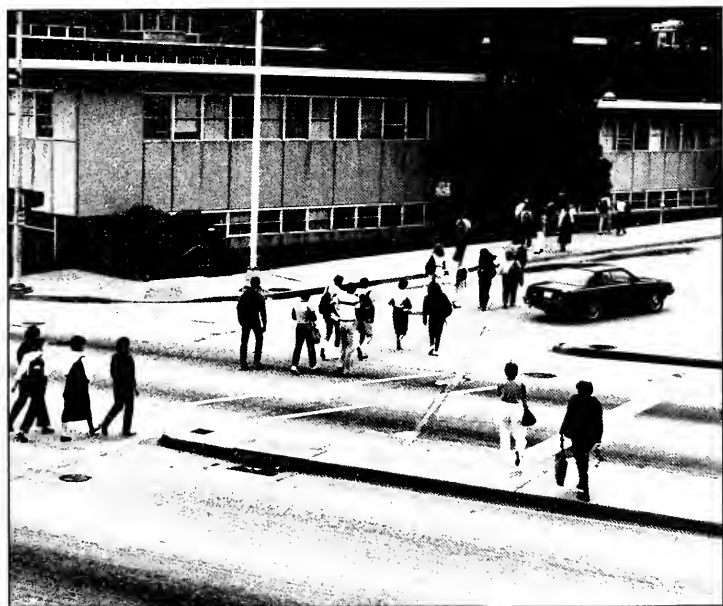

In November

Date: Wednesday, November 11,
1987

Forecast: Rain, possibly freezing
rain, but ending early in the morning

Just goes to prove, the weatherman doesn't always know what he is talking about. And it certainly was true in this case. Snow!! And just enough to make things messy. Road conditions weren't "that bad," but bad enough to cause some minor accidents and major traffic delays. All total, there were only about 4 inches of snow on the ground, but definitely enough to cause some students to cut classes and begin the icy journey home. After making it back to their cars, students found themselves scraping windshields, warming up those chilly heaters and defrosters, and stopping to throw an occasional snowball. It didn't last long because by the next day, most of the snow had melted and temperatures were on the rise again.

READY!

SET!

GO!

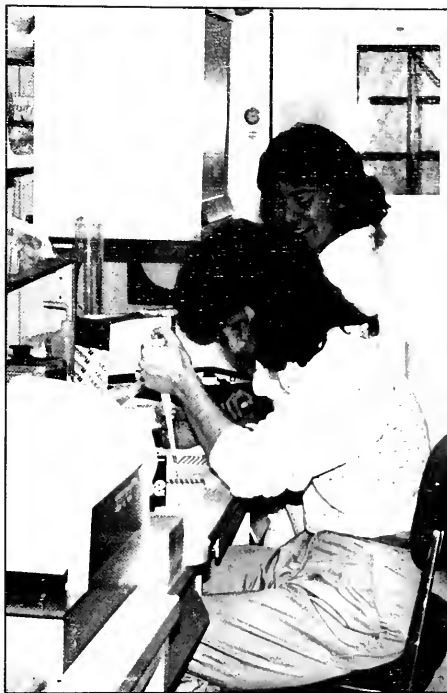

And...they're off!...And headed for a medical career. For the average MCV student, the student life is not particularly out of the ordinary. Whether living in the dorms or an apartment on the outskirts of the city, the student life really begins in the classrooms and clinics. But, it doesn't end there. After school is out, carpools sit in 5:00 traffic for awhile before making it home and continuing their nights with the books, family, and friends. Just look around, and it's evident that students find a variety of ways to make life at MCV interesting and different. So...it's off to the races at MCV...and on with the pursuit of that medical career.

MCV Students Hungry For Knowledge

The students of MCV are "hungry for knowledge." They just can't seem to get enough. Spending school hours, nights, and weekends in the labs and libraries collecting data and information for projects and papers, students get the most that they can from their education. Each program at MCV has a limited amount of time in which to teach students what they need to know before graduation. So, it's no wonder the dedicated students put forth that extra effort to gain as much as they can.

CAMPUS CAMPUS CAMPUS

Evening of Elegance

The students of MCV found time to change out of their "scrubs" and into their semi-formals for an *Evening of Elegance* at the SGA's Annual Winter Dance. This festive occasion was held at the downtown Marriott's Grand Ballroom with music provided by the Voltage Brothers Band.

All in a Day's Work

Dedicated to the Classes

Once in awhile, a select group stands out among others. At McV, that select group is our student body. For each of us, it took great determination and dedication to get to this point in our lives, and yet we realize it will take even more dedication to move us ever closer to our goals. So for this, we have become...the dedicated students.

Investing in the Future.

...Patterson's history of progress

Patterson Dental Company grew from a proud heritage begun in 1877, when young M. F. Patterson opened a dental supply counter in his Milwaukee drug store. Soon thereafter, he relocated the company to the growing Minneapolis area, where it is headquartered today.

Patterson's history is characterized by progressive company growth. By the 1960's the company had expanded to 36 branches located primarily in the Midwest, Southeast and West. Since then, Patterson has continued to grow and today employs more than 1500 people in over 90 locations...creating a national distribution network united by advanced computer technology.

...growth for tomorrow

Patterson Dental Company is committed to the future of dentistry...we're planning now for the dentistry of tomorrow.

Toward that goal, we've invested in management technology and human resources: a national computer network, inventory and management systems, office planning and design, technical repair service, recruitment and training, and professional education programs for dentists and staff. Additionally, Patterson has created a centralized institutional bidding department to handle the specialized needs of dental facilities in Veterans' Administration hospitals, military bases, dental schools, and government clinics.

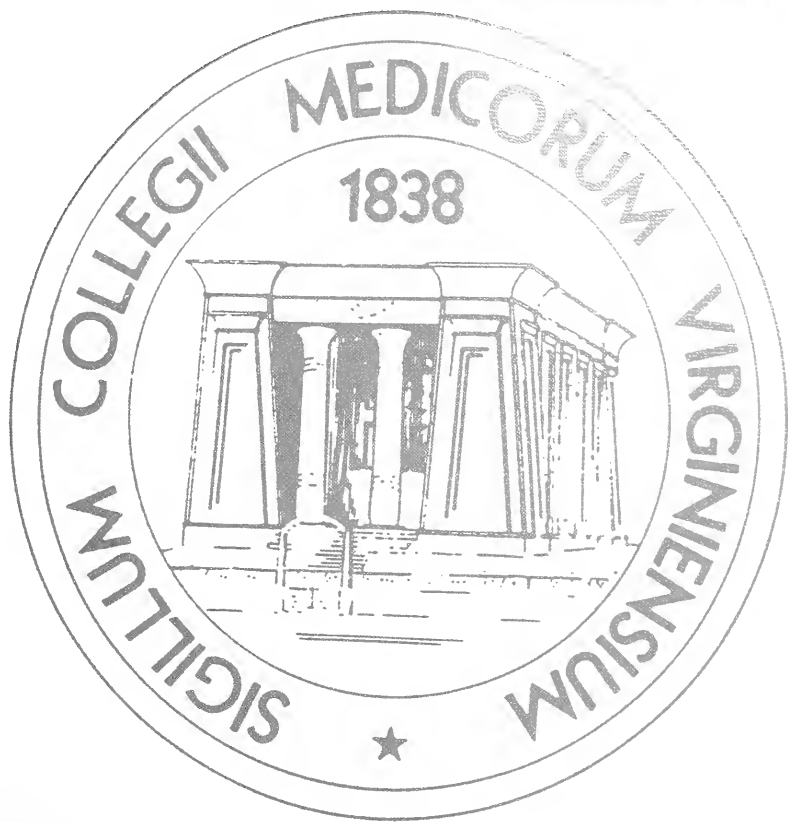

We strive to stay at the forefront of the dental industry, meeting the complex needs of tomorrow with innovations that begin today.

Dedicated to Life

As the 1987-88 school year comes to a close, we, the students of MCV have moved one step closer to our career goals. Our attention to our studies, over the past year, has allowed us to achieve excellence in our academics. As well, we managed to uphold the highest standards of patient care while developing our clinical and laboratory skills. Throughout all of this, the quality of life, both the patient's and our own was never sacrificed. It took some adjustments to balance the school life with the social life. But to a student, both are important to maintain the quality of life.

Medical College of Virginia has prepared the graduates of 1988 to leave the school as health care professionals. They take with them a sampling of knowledge from books, faculty, friends, and life's daily experiences at MCV. They must now be able to translate and incorporate these experiences into their outside lives. As they leave the doors of MCV, they enter a world where the responsibilities of the health-related problems never cease, and the solutions are left up to them. So, why do we take on so much? All because of...our dedication to life!

Meet the 1988 X-Ray Staff

Betty Lee
Editor-in-Chief
Pentistry 1990

Henry De-Assistant
Pentistry 1989

This, our first year as the editors of the yearbook proved to be satisfying, but not without difficulties. To take 176 pages of blank paper and turn them into the 1988 McV X-Ray was quite an undertaking. We had to attend our own classes and clinics, keep up with our studies, and manage to take a few photographs along the way. Well...This is it! We have finished! We have anticipated the end since the very beginning...and now it's here! So...McV...we present to you the 1988 X-Ray, and we hope you enjoy it!

The 1988 X-Ray Staff extends a special thanks to the following:

John Perry-for your patience and understanding, and for getting us started in the right direction!

Hunter Publishing Company-for printing our yearbook!

Life Touch Portrait Studios-for photographing and processing our student portraits! Thanks Sandy for all your help in scheduling!

Class Photographers-for the photographs you submitted. Without them, there would be no yearbook!

Jim Reynolds-for getting me into this! I think...Well, it's finished and I hope we did as well as you've done in the past!

Foxx Photo-for your 1 hour service!

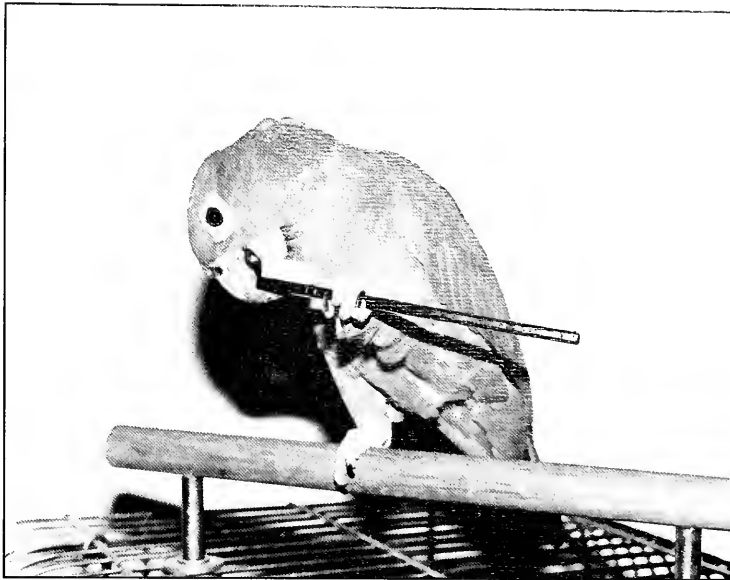

James Miller-for all your assistance and kindness during the past year!

SGA-for your support and guidance along the way!

1CV Student Body-for attending MCV. Without you, there would be no need for a yearbook.

COLOPHON

The 1988 X-Ray was printed by Hunter Publishing Company of Winston-Salem, North Carolina. A total of 1400 copies were run. Each copy consists of 176, trim sized "8½x11" pages. The hardback 120 pt. binders board cover is black lexotone with hot stamped gold mylar processed by foil stamp. All paper type is 80 lb. embossed, and the endsheets are black textured. The books were long bound and Smythe sewn. The first signature, pages 1-16, was printed in 4-color. Throughout the remainder of the book, various percentages of gray ranging from 10-50% were used. The predominant headline and body copy typestyles used were: Helvetica, Helvetica Bold Outline, Melior Bold, **Avant Bold**, **Broadway Engraved**, *Mintal*, and *Shelly Andante*. Portraits were photographed in September and October of 1987 and processed by Life Touch Portraits Studios of Richmond, Virginia. The 1988 X-Ray is a publication of the Student Government Association's elected editors for the students of Medical College of Virginia.

"CRAZY CRITTERS"

Dedicated to Life

We the Editors of the 1988 X-ray, have dedicated this last and final page to you, the students of MCV. You are left with a challenge to create the final page of your yearbook, and the rest of your life. Fill this page with your memories of the past, the happenings of the present, and your hopes for the future. Our task is complete. We have brought you the 1987-88 school year in pictures, but it does not end here. The rest is up to you, so ... become dedicated to life!
